**You Can't Win If  
You Can't  
Score!!!**

The Mukwonago Basketball Coaches will again be holding a special set of shooting camps this summer for boys who will be in 5th thru 9th grade. The purpose of this camp is to develop good, sound fundamentals in the skill of shooting the basketball. Although there are a lot of important skills needed to be a great basketball player, none are nearly as important as being a great shooter.

Shooting camps are designed to completely concentrate on shooting technique, in great detail. Developing the perfect shot, learning how to shoot in different game situations, establishing a dedicated shooting workout, and numerous smaller topics will get taught in daily lessons.

We again will be having an Offensive Skill Camp for the older player. This camp will incorporate shooting skills with a bigger emphasis on shooting off the catch, shooting off the dribble, dribble moves, one-on-one moves, post moves, using screens, etc.

Please contact Coach Haasser if you have questions about any of our camp offerings.
